Board of Directors
Casitas Municipal Water District

Introduction

It is our pleasure to submit the Comprehensive Annual Financial Report (CAFR) for the Casitas Municipal Water District (District) for the fiscal years ended June 30, 2012 and 2011, following guidelines set forth by the Governmental Accounting Standards Board. District staff prepared this financial report. The District is ultimately responsible for both the accuracy of the data and the completeness and the fairness of presentation, including all disclosures in this financial report. We believe that the data presented is accurate in all material respects. This report is designed in a manner that we believe necessary to enhance your understanding of the District's financial position and activities.

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview and analysis to accompany the financial statements in the form of the Management's Discussion and Analysis (MD&A) section. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately after the Independent Auditors' Report.

District Structure and Leadership

The Casitas Municipal Water District is a special district of the State of California that provides domestic and agricultural water services to the western portion of Ventura County. The District's Board of Directors is composed of five members who are elected in specified election divisions. The Directors serve terms of four years with an election held every two years for alternating divisions. The District also provides recreational activities at Lake Casitas. The water district and the lake activities are accounted for as an enterprise fund.

Formed in 1952, the District was the inspiration of area civic leaders, cattlemen, and citrus ranchers who were frustrated by a severe drought and subsequent water rationing. Between 1952 and 1956, when ground was broken for Casitas Dam, the District sought and obtained commitments for 50-year federal loans to construct Casitas Dam and the Robles-Casitas Diversion Canal. Engineers drilled through 1,800 feet of rock for the outlet tunnel, and built an earthen dam with 9.2 million cubic yards of earth. Final cost of the reservoir, dam and Lake Casitas Recreation Area was \$20 million.

Drawing from the 105-square mile watershed, Lake Casitas began to form in the Santa Ana Valley. In 1978, 19 years after the dam's completion, the lake overflowed for the first time. With a capacity of 254,000-acre feet, the reservoir has a shoreline of 35 miles and provides water to over 65,000 people.

Water quality is strictly controlled in the surrounding 3,200-acre Charles M. Teague Memorial Watershed. Since 1974, the federal government has spent more than \$25 million to purchase lands in the watershed to preserve water quality from the pollution of over development.

For the past forty-four years, Casitas Municipal Water District has been a strong proponent of watershed protection and lake management. The efforts to protect the Lake Casitas watershed and lake management practices developed by the District provide an excellent quality of water to the customers. Regulatory changes affecting surface waters had moved the District through considerations for filtration avoidance to the conclusion that construction of a water filtration plant was necessary to meet regulatory requirements. The Marion R. Walker Pressure Filtration Plant was designed and constructed to meet those requirements and became fully operational on November 6, 1997. Casitas was proud to receive a water supply permit from the Department of Health Services granting the District permission to supply water for domestic purposes after completion of the treatment plant.

Economic Condition and Outlook

The District offices are located in the Ojai Valley in Ventura County. Santa Barbara and Ventura counties have shown the healthiest economic growth in the region. The economic outlook for Southern California is one of cautious and slow growth.

California's water supply continues to be a concern due to projected population increases. This concern has increased interest in conservation and in irrigation methods and systems. The District has led the area in its conservation efforts and will continue to make strides in this area.

Internal Control Structure

District management is responsible for the establishment and maintenance of the internal control structure that ensures the assets of the District are protected from loss, theft or misuse. The internal control structure also ensures adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The District's internal control structure is designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgetary Control

The District's Board of Directors annually adopts an operating and capital budget prior to the new fiscal year. The budget authorizes and provides the basis for reporting and control of financial operations and accountability for the District's enterprise operations and capital projects.

The budget and reporting treatment applied to the District is consistent with the accrual basis of accounting and the financial statement basis.

Investment Policy

The Board of Directors annually adopts an investment policy that conforms to state law, District ordinance and resolutions, prudent money management, and the "prudent person" standards. The objective of the Investment Policy is safety, liquidity and yield. District funds are invested in the State Treasurer's Local Agency Investment Fund, County of Ventura Pooled Money Investment Fund, U.S. Treasury Bills and institutional savings and checking accounts.

Water Rates and District Revenues

District policy direction ensures that all revenues from user charges and surcharges generated from District customers must support all District operations including capital project funding. Accordingly, water rates are reviewed periodically. Water rates are user charges imposed on customers for services and are the primary component of the District's revenue. Water rates are composed of a commodity (usage) charge and a fixed (readiness-to-serve) charge.

Audit and Financial Reporting

State Law and Bond covenants require the District to obtain an annual audit of its financial statements by an independent certified public accountant. The accounting firm of Charles Z. Fedak & Company, CPAs has conducted the audit of the District's financial statements. Their unqualified Independent Auditor's Report appears in the Financial Section.

Awards and Acknowledgements

For the year ended June 30, 2011, the District received for the 18th year the Government Finance Officers Association of the United States and Canada's (GFOA) *Certificate of Achievement for Excellence in Financial Reporting*. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements. (See Page 6)

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Preparation of this report was accomplished by the combined efforts of District staff. We appreciate the dedicated efforts and professionalism that our staff members bring to the District. We would also like to thank the members of the Board of Directors for their continued support in the planning and implementation of the Casitas Municipal Water District's fiscal policies.

Respectfully submitted,

Steve Wickstrum
General Manager

Denise Collin

Independent Auditor's Report

Board of Directors
Casitas Municipal Water District
Oak View, California

We have audited the accompanying financial statements of the Casitas Municipal Water District (District) as of and for the years ended June 30, 2012 and 2011, which collectively comprises the District's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of District's management. Our responsibility is to express an opinion on these basic financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the Casitas Municipal Water District as of June 30, 2012 and 2011, and the respective changes in net assets and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated October 31, 2012, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit. That report can be found on page 64.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 9 through 13 and the required supplementary information on page 39 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Independent Auditor's Report, continued

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The introductory section on pages 1 through 6, the supplemental information section on pages 40 through 49, and the statistical section on pages 50 through 63 are presented for purposes of additional analysis and are not required parts of the basic financial statements. The supplemental information schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Casitas Municipal Water District
Management's Discussion and Analysis
For the Fiscal Years Ended June 30, 2012 and 2011

The following Management's Discussion and Analysis (MD&A) of activities and financial performance of the Casitas Municipal Water District (District) provides an introduction to the financial statements of the District for the fiscal years ended June 30, 2012 and 2011. We encourage readers to consider the information presented here in conjunction with the transmittal letter in the Introductory Section and with the basic financial statements and related notes, which follow this section.

Financial Highlights

- In 2012, the District's net assets increased 0.35% or \$286,219, from \$81,634,116 to \$81,920,335. In 2011, the District's net assets increased 4.0% or \$3,139,094, from \$78,495,022 to \$81,634,116.
- In 2012, the District's operating revenue increased 6.3% or \$688,976 primarily due to a \$367,861 increase in retail water consumption revenue and a \$330,367 increase in recreation revenue. The District's operating revenues decreased 10.2% or \$1,238,317 in 2011 primarily due to a \$777,853 decrease in retail water consumption revenue and a \$341,733 decrease in recreation revenues.
- In 2012, the District's operating expenses increased 4.0% or \$459,889 primarily due to a \$114,846 increase in recreation expenses and a \$129,938 increase in general and administrative expenses. The District's operating expenses increased 3.7% or \$415,989 in 2011 primarily due to a \$154,957 increase in source of supply costs and a \$387,864 increase in general and administrative expenses.

Required Financial Statements

This annual report consists of a series of financial statements. The Statement of Net Assets, Statement of Revenues, Expenses and Changes in Net Assets and Statement of Cash Flows provide information about the activities and performance of the District using accounting methods similar to those used by private sector companies.

The Statement of Net Assets includes all of the District's investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing a rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenue and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Assets. This statement measures the success of the District's operations over the past year and can be used to determine if the District has successfully recovered all of its costs through its rates and other charges. This statement can also be used to evaluate profitability and credit worthiness. The final required financial statement is the Statement of Cash Flows, which provides information about the District's cash receipts and cash payments during the reporting period. The Statement of Cash Flows reports cash receipts, cash payments and net changes in cash resulting from operations, investing, non-capital financing, and capital and related financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period.

Financial Analysis of the District

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of this year's activities?" The Statement of Net Assets and the Statement of Revenues, Expenses and Changes in Net Assets report information about the District in a way that helps answer this question. These statements include all assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

Casitas Municipal Water District
Management's Discussion and Analysis
For the Fiscal Years Ended June 30, 2012 and 2011

These two statements report the District's *net assets* and changes in them. You can think of the District's net assets – the difference between assets and liabilities – as one way to measure the District's financial health, or *financial position*. Over time, *increases or decreases* in the District's net assets are one indicator of whether its *financial health* is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, zoning and new or changed government legislation, such as changes in Federal and State water quality standards.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Statement of Net Assets

Condensed Statements of Net Assets

Assets:					
Current assets	\$ 32,372,747	30,713,074	1,659,673	26,707,836	4,005,238
Non-current assets	94,094	105,855	(11,761)	117,617	(11,762)
Capital assets, net	<u>58,241,716</u>	<u>59,174,652</u>	<u>(932,936)</u>	<u>60,182,486</u>	<u>(1,007,834)</u>
Total assets	<u>90,708,557</u>	<u>89,993,581</u>	<u>714,976</u>	<u>87,007,939</u>	<u>2,985,642</u>
Liabilities:					
Current liabilities	1,685,999	2,139,098	(453,099)	2,246,946	(107,848)
Non-current liabilities	<u>7,102,223</u>	<u>6,220,367</u>	<u>881,856</u>	<u>6,265,971</u>	<u>(45,604)</u>
Total liabilities	<u>8,788,222</u>	<u>8,359,465</u>	<u>428,757</u>	<u>8,512,917</u>	<u>(153,452)</u>
Net assets:					
Net investment in capital assets	55,501,696	55,261,613	240,083	55,104,044	157,569
Restricted for debt service	199,890	217,413	(17,523)	234,422	(17,009)
Unrestricted	<u>26,218,749</u>	<u>26,155,090</u>	<u>63,659</u>	<u>23,156,556</u>	<u>2,998,534</u>
Total net assets	<u>81,920,335</u>	<u>81,634,116</u>	<u>286,219</u>	<u>78,495,022</u>	<u>3,139,094</u>
Total liabilities and net assets	<u>\$ 90,708,557</u>	<u>89,993,581</u>	<u>714,976</u>	<u>87,007,939</u>	<u>2,985,642</u>

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$81,920,335 and \$81,634,116 as of June 30, 2012 and 2011, respectively.

One of the largest portions of the District's net assets (68% and 68% as of June 30, 2012 and 2011, respectively) reflects the District's investment in capital assets (net of accumulated depreciation) less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to customers within the District's service area; consequently, these assets are *not* available for future spending.

At the end of fiscal years 2012 and 2011, the District showed a positive balance in its unrestricted net assets of \$26,218,749 and \$26,155,090, respectively.

For the Fiscal Years Ended June 30, 2012 and 2011

Total Expenses

	<u>2012</u>	<u>2011</u>	<u>Change</u>	<u>2010</u>	<u>Change</u>
Operating expenses:					
Source of supply	\$ 1,498,408	1,493,036	5,372	1,338,079	154,957
Pumping	1,194,225	1,168,939	25,286	1,166,950	1,989
Water treatment	1,184,305	1,107,391	76,914	1,165,062	(57,671)
Transmission and distribution	527,004	488,434	38,570	530,798	(42,364)
Telemetry	294,816	251,534	43,282	266,133	(14,599)
Customer accounts	387,735	362,054	25,681	308,364	53,690
Recreation expenses	3,551,695	3,436,849	114,846	3,504,726	(67,877)
General and administrative	3,408,831	3,278,893	129,938	2,891,029	387,864
Total operating expenses	<u>12,047,019</u>	<u>11,587,130</u>	<u>459,889</u>	<u>11,171,141</u>	<u>415,989</u>
Depreciation and amortization	<u>3,097,495</u>	<u>3,037,340</u>	<u>60,155</u>	<u>2,863,329</u>	<u>174,011</u>
Non-operating expenses:					
State water project expense	382,908	787,665	(404,757)	666,442	121,223
Tax collection expense	30,158	31,158	(1,000)	30,416	742
Interest expense – long-term debt	94,969	102,295	(7,326)	106,239	(3,944)
Deferred charges amortization	11,761	11,762	(1)	11,762	-
Total non-operating expenses	<u>519,796</u>	<u>932,880</u>	<u>(413,084)</u>	<u>814,859</u>	<u>118,021</u>
Total expenses	<u>\$ 15,664,310</u>	<u>15,557,350</u>	<u>106,960</u>	<u>14,849,329</u>	<u>708,021</u>

The District's total expenses increased 0.7% or \$106,960 in 2012 due primarily to an increase in recreation expenses of \$114,846, general and administrative expenses of \$129,938 and a decrease in the State project water expense of \$404,757. The District's total expenses increased 4.8% or \$708,021 in 2011 primarily due to a \$154,957 increase in source of supply costs, a \$387,864 increase in general and administrative expenses and a \$121,223 increase in State water project expense.

Capital Asset Administration

At the end of fiscal years 2012 and 2011, the District's investment in capital assets amounted to \$58,241,716 and \$59,174,652, respectively, (net of accumulated depreciation). This investment in capital assets includes land, land rights, transmission and distribution systems, wells, tanks, reservoirs, pumps, buildings and structures, equipment, vehicles and construction-in-process, etc. There were numerous capital asset additions in fiscal years 2012 and 2011. See further detailed information in Note 5.

Changes in capital asset amounts for 2012 were as follows:

	<u>Balance</u>		<u>Transfers/</u>	<u>Balance</u>
	<u>2011</u>	<u>Additions</u>	<u>Deletions</u>	<u>2012</u>
Capital assets:				
Non-depreciable assets	\$ 6,438,069	395,683	(323,740)	6,510,012

Casitas Municipal Water District
Notes to the Basic Financial Statements
For the Fiscal Years Ended June 30, 2012 and 2011

(1) Reporting Entity and Summary of Significant Accounting Policies

A. Organization and Operations of the Reporting Entity

Established in 1952, the Casitas Municipal Water District provides domestic and agricultural water to the western portion of Ventura County. The District is governed by a five-member Board of Directors who serve overlapping four-year terms.

The criteria used in determining the scope of the financial reporting entity is based on the provisions of Governmental Accounting Statements No. 14, *The Financial Reporting Entity*, and No. 39, *Determining Whether Certain Organizations Are Component Units* (an amendment of No. 14). The District is the primary governmental unit based on the foundation of a separately elected governing board that is elected by the citizens in a general popular election. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The District is financially accountable if it appoints a voting majority of the organization's governing body and: 1) It is able to impose its will on that organization, or 2) There is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. The District has no blended or discretely-presented component units.

B. Basis of Accounting and Measurement Focus

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the District is that the costs of providing water to its customers on a continuing basis be financed or recovered primarily through user charges (water sales & recreational charges), capital grants and similar funding. Revenues and expenses are recognized on the full accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred, regardless of when the related cash flows take place.

Operating revenues and expenses, such as water sales and water purchases, result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each party receives and gives up essentially equal values. Management, administration and depreciation expenses are also considered operating expenses. Other revenues and expenses not included in the above categories are reported as non-operating revenues and expenses.

C. Financial Reporting

The District's basic financial statements are presented in conformance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* (GASB No. 34). This statement established revised financial reporting requirements for state and local governments throughout the United States for the purpose of enhancing the understandability and usefulness of financial reports.

GASB No. 34 and its related GASB pronouncements provide for a revised view of financial information and restructure the format of financial information provided prior to its adoption. A statement of net assets replaces the balance sheet and reports assets, liabilities, and the difference between them as net assets, not equity. A statement of revenues, expenses and changes in net assets replaces both the income statement and the statement of changes in retained earnings and contributed capital. GASB No. 34 also requires that the statement of cash flows be prepared using the direct method. Under the direct method, cash flows from operating activities are presented by major categories.

Under GASB No. 34, enterprise funds, such as the District, have the option of consistently following or not following pronouncements issued by the Financial Accounting Standards Board (FASB) subsequent to November 30, 1989. The District has elected not to follow FASB standards issued after that date, unless such standards are specifically adopted by GASB.

Casitas Municipal Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2012 and 2011

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

D. Assets, Liabilities and Net Assets

1. Use of Estimates

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported changes in net assets during the reporting period. Actual results could differ from those estimates.

2. Cash and Cash Equivalents

Substantially all of the District's cash is invested in interest bearing accounts. The District considers all highly liquid investments with a purchased maturity of three months or less to be cash equivalents.

3. Investments and Investment Policy

The District has adopted an investment policy directing the Accounting Manager/Treasurer to deposit funds in financial institutions.

Changes in fair value that occur during a fiscal year are recognized as investment income reported for that fiscal year. Investment income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

4. Accounts Receivable and Allowance for Uncollectible Accounts

The District extends credit to customers in the normal course of operations. When customers are delinquent in payment, the District will shut-off service and send amounts to a collection agency. As such, when management deems customer accounts uncollectible, the District uses the direct write-off method.

5. Federal and State Capital and Operating Grants

When a grant agreement is approved and eligible expenditures are incurred, the amount is recorded as a capital or operating grant receivable on the statement of net assets and as capital grant contribution or operating grant revenue, as appropriate, on the statement of revenues, expenses and changes in net assets.

6. Water-In-Storage Inventory

The value of water inventory is determined based upon the quantity of water in storage and rates estimated based on the maintenance of the District-owned reservoir facilities.

7. Materials and Supplies Inventory

Materials and supplies inventory consists primarily of water meters, pipe and pipefittings for construction and repair to the District's water transmission and distribution system. Inventory is valued at cost using a weighted average method. Inventory items are charged to expense at the time that individual items are withdrawn from inventory or consumed.

8. Prepaid Expenses

Certain payments to vendors reflects costs or deposits applicable to future accounting periods and are recorded as prepaid items in the basic financial statements.

Casitas Municipal Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2012 and 2011

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

D. Assets, Liabilities and Net Assets, continued

9. Restricted Assets

Certain assets of the District are restricted in use by ordinance or debt covenant and, accordingly are shown as restricted assets on the accompanying statement of net assets. Special assessments, and related receivables, are set aside from other assets since they are collected solely for the repayment of the District's Special Assessment bonds. The District uses restricted resources, prior to using unrestricted resources, to pay expenditures meeting the criteria imposed on the use of restricted resources by a third party.

10. Capital Assets

Capital assets acquired and/or constructed are capitalized at historical cost. District policy has set the capitalization threshold for reporting capital assets at \$5,000. Donated assets are recorded at estimated fair market value at the date of donation. Upon retirement or other disposition of capital assets, the cost and related accumulated depreciation are removed from the respective balances and any gains or losses are recognized. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

Transmission and distribution system	50 years
Service lines	33 1/3 years
Wells and water treatment equipment	5-25 years
Other equipment and vehicles	5-11 years

11. State Water Project Participation Rights

The District participates in the State Water Project (Project) entitling it to certain water rights. The District's participation in the Project is through cash payments. Monies used for the construction of capital assets, such as pipelines, pumping facilities, storage facilities, etc., are recorded as participation rights and amortized over the life of the agreements. Certain projects also require payments for on-going maintenance; those payments are charged to expenses as incurred.

12. Deferred Charges

The deferred charges are from bond issuance costs that will be amortized using the straight-line method over the remaining life of the respective debt service.

13. Compensated Absences

The District's personnel policies provide for accumulation of vacation and sick leave. Liabilities for vacation and sick leave are recorded when benefits are earned. Cash payment of unused vacation is available to those qualified employees when retired or terminated.

14. Customer Deposits

Based on a customer's credit-worthiness, the District may require a deposit deemed reasonable by the District. These deposits are held to pay-off close out bills or to cover delinquent payments.

15. Post Employment Retirement Benefit

The District provides certain health care benefits for all retired employees that meet eligibility requirements. The District's share of the estimated costs that will be paid after retirement is being accounted for on a pay-as-you-go basis.

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

D. Assets, Liabilities and Net Assets, continued

16. Net Assets

The financial statements utilize a net assets presentation. Net assets are categorized as follows:

- **Net Investment in Capital Assets** – This component of net assets consists of capital assets, net of accumulated depreciation and reduced by any debt outstanding against the acquisition, construction or improvement of those assets.
- **Restricted Net Assets** – This component of net assets consists of constraints placed on net assets use through external constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted Net Assets** – This component of net assets consists of net assets that do not meet the definition of *restricted* or *net investment in capital assets*.

17. Water Sales

Most water sales are billed on a bi-monthly cyclical basis. Water sales for some agricultural customers are billed monthly. Estimated unbilled water revenue through June 30 has been accrued at year-end.

18. Capital Contributions

Capital contributions represent cash and capital asset additions contributed to the District by property owners, granting agencies or real estate developers desiring services that require capital expenditures or capacity commitment.

19. Economic Dependency

The District receives approximately one-third of its water sales revenue from the City of Ventura. The District's top ten customers represent approximately one-half of the total water sales revenue received. The District would lose a significant amount of its revenue if these major customers obtained water services from another source.

20. Budgetary Policies

The District adopts an annual non-appropriated budget for planning, control, and evaluation purposes. Budgetary control and evaluation are affected by comparisons of actual revenues and expenses with planned revenues and expenses for the period. Encumbrance accounting is not used to account for commitments related to unperformed contracts for construction and services.

Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2012 and 2011

(2) Cash and Investments

Cash and investments as of June 30, are classified in the accompanying financial statements as follows:

	2012	2011
Cash and cash equivalents	\$ 7,097,713	5,327,895
Investments	12,619,180	12,429,305
Total cash and investments	\$ 19,716,893	17,757,200

Cash and investments as of June 30, consist of the following:

	2012	2011
Cash on hand	\$ 4,300	4,300
Deposits with financial institutions	4,434,047	2,671,898
Deposits in money market accounts	502,994	509,250
Investments	14,775,552	14,571,752
Total cash and investments	\$ 19,716,893	17,757,200

Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the investment types that are authorized by the District in accordance with the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy.

Authorized Investment Type	Maximum Maturity	Maximum Percentage Of Portfolio	Maximum Investment in One Issuer
U.S. Treasury Obligations	5 years	None	None
Negotiable Certificates of Deposit	5 years	30%	None
Money Market Mutual Funds	N/A	None	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None

(2) Cash and Investments, continued

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. Of the bank balances, up to \$250,000 is federally insured and the remaining balance is collateralized in accordance with the Code; however, the collateralized securities are not held in the District's name.

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Ventura County Pooled Investment Fund

The District is a voluntary participant in the VCPIF and the District determines the amount and term of its investment. The County Treasurer makes investments in accordance with a Statement of Investment Policy reviewed and approved annually by the Board of Supervisors. The Treasury Investment Oversight Committee comprised of the County Treasurer, a representative of the Board of Supervisors, the County Investment Manager, a representative of the County Superintendent of Schools and other Treasury Department support staff meets semi-annually to review the activities of the Treasurer and provide a report to the Board of Supervisors. The County's Treasurer has indicated to the District that as of June 30, 2012 that the value of the County's portfolio was approximately \$2.0 billion.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio matures or comes close to maturity evenly over time as necessary to provide requirements for cash flow and liquidity needed for operations. Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity date:

Investments at June 30, 2012:		Remaining Maturity			
		12 Months Or Less	13 to 24 Months	25 to 60 Months	>60 Months
Investment Type	Total				
Government sponsored entities securities	\$ 12,619,180	1,406,013	2,173,787	5,153,662	3,885,718

Total	\$ 14,571,752	4,957,910	1,422,939	5,943,665	2,247,238

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the District's investment policy, or debt agreements, and the actual rating as of year end for each investment type.

Investments at June 30, 2012:		Minimum Legal Rating	Exempt From Disclosure	Rating at Year End AAA
Investment Type	Total			
Government sponsored entities securities	\$ 12,619,180	N/A	\$ -	12,619,180
Local Agency Investment Fund (LAIF)	443	N/A	443	-

(3) Water-In-Storage Inventory

The following schedule notes the change in the cost of the water held-in-storage in Casitas Lake. The increase or decrease in the water storage valuation balance denotes a way of accounting for water diversion expenses in future years when the water in the lake is transmitted to the District's customers.

Changes in water-in-storage inventory were as follows:

	<u>2012</u>	<u>2011</u>
Beginning balance – water-in-storage	\$ 11,025,928	7,707,834
Water storage valuation	<u>-</u>	<u>3,318,094</u>
Ending balance – water-in-storage	<u>\$ 11,025,928</u>	<u>11,025,928</u>

(4) Deferred Charges

The deferred charges balance relates to the originating loan fees for the 1991 California Department of Water Resources Loan for the water treatment plant. The balance is being amortized over a twenty year period. The deferred charges net balances are as follows:

The balance at June 30, consists of the following:

	<u>2012</u>	<u>2011</u>
Deferred charges	\$ 247,808	247,808
Accumulated amortization	<u>(153,714)</u>	<u>(141,953)</u>
Deferred charges, net	<u>\$ 94,094</u>	<u>105,855</u>

(5) Capital Assets

Construction-In-Process

The District has been involved in various construction projects throughout the year. The balances of the various construction projects that comprise the construction-in-process balances at June 30 are as follows:

The balance at June 30, consists of the following projects:

	<u>2010</u>	<u>2011</u>	<u>2012</u>
Rincon pump plant rehabilitation	\$ 1,437,813	158,364	-
Upper Ojai pump plant rehabilitation	-	126,845	-
Reservoir roads patch and/or slurry seal	-	-	146,364
Fairview pumping plant rehabilitation	-	-	273,480
Various other minor projects	<u>66,001</u>	<u>104,925</u>	<u>42,233</u>

State Water Project Entitlement

In 1963, the Ventura County Flood Control District contracted with the State of California (State) for 20,000 acre-feet per year of water from the State Water Project (SWP). The SWP conveys water from Northern California to Southern California through a system of reservoirs, canals, pumps stations and power generation facilities. In 1971, the administration of the State Water Contract with the State was assigned to the District. Of the 20,000 acre-feet per year contracted, the District is assigned 5,000 acre-feet per year, United Water Conservation District is assigned 5,000 acre-feet per year, and the City of Ventura is assigned 10,000 acre-feet per year. Currently, only United Water Conservation District is receiving water from the SWP.

The District is one of many participants contracting with the State of California for a system to provide water throughout California. Under the terms of the State Water Contract, as amended, the District is obligated to pay allocable portions of the cost of construction of the system and ongoing operations and maintenance costs through at least the year 2035, regardless of the quantities of water available from the project. The District and the other contractors may also be responsible to the State for certain obligations by any contractor who defaults on its payments to the State.

Management's present intention is to exercise the District's option to extend the contractual period to at least 2052, under substantially comparable terms. This corresponds to an estimated 80-year service life for the original facilities. The State is obligated to provide specific quantities of water throughout the life of the contract, subject to certain conditions.

In addition to system on-aqueduct power facilities, the State has, either on its own or through joint venture, financed certain off-aqueduct power facilities (OAPF). The power generated is utilized by the system for water transportation purposes. Power generated in excess of system needs is marketed to various utilities and California's power market. The District is entitled to a proportionate share of the revenues resulting from sales of excess power. The District and the other water contractors are responsible for repaying the capital and operating costs of the OAPF regardless of the amount of power generated.

The District capitalizes its share of system construction costs as participation rights in state water facilities when such costs are billed by the State. Unamortized participation rights essentially represent a prepayment for future water deliveries through the State system. The District's share of system operations and maintenance costs is charged to expense.

The District amortizes a portion of capitalized participation rights each year using a formula that considers the total estimated cost of the project, estimated useful life and estimated production capacity of the assets based upon information provided by the State of California.

Total long-term debt	\$ 5,078,442	-	(1,165,403)	3,913,039	1,173,019

Bonds Payable:

Mira Monte Special Assessment Bonds Payable

The special assessment bonds payable were incurred to repay the District for upgrading the Mira Monte Water System in order to meet the District's standards for water delivery systems. The bonds payable bear interest at an effective rate of 5% and is payable in annual installments of graduated amounts ranging from \$3,000 to \$19,500 through the year 2021. Debt service payments on the special assessment bonds are provided by assessments of property owners. Annual debt service requirements on the special assessment bonds payable are as follows:

Total non-current	\$ <u>2,367,788</u>		

United States Bureau of Reclamation Loan Payable

The note payable to the Bureau of Reclamation was incurred to construct the dam and main distribution system for Casitas Reservoir. The note is payable in decreasing annual installments ranging from \$260,000 to \$1,000,000 through the year 2012. Only the non-irrigation portion of the note bears interest at a rate of 2.6%, and that portion was paid-off in 2000. Debt service payments on the note payable to the Bureau of Reclamation are provided by the USBR note surcharge on parcels within the District. As of June 30, 2012, the District had paid-off this obligation.

Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2012 and 2011

(8) Other Post Employment Benefits Payable

During the fiscal year ended June 30, 2012, the District implemented GASB Statement No. 45, which changed the accounting and financial reporting used by local government employers for post employment benefits. Previously, the costs of such benefits were generally recognized as expenses of local government employers on a pay-as-you-go basis. The new reporting requirements for these benefit programs as they pertain to the District are set forth below.

Plan Description – Eligibility

The District pays a portion of the cost of health insurance for retirees under any group plan offered by CalPERS, subject to certain restrictions as determined by the District.

Membership in the OPEB plan consisted of the following members as of June 30:

	2012	2011	2010
Active plan members	48	51	49
Retirees and beneficiaries receiving benefits	43	43	43
Separated plan members entitled to but not yet receiving benefits	-	-	-
Total plan membership	91	94	92

Plan Description – Benefits

The District offers post employment medical benefits to retired employees who satisfy the eligibility rules. Spouses and surviving spouses are also eligible to receive benefits. Retirees may enroll in any plan available through the District’s CalPERS medical. The contribution requirements of Plan members and the District are established and may be amended by the Board of Directors.

Funding Policy

The District is required to contribute the *Annual Required Contribution (ARC) of the Employer*, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The current ARC rate is 37.7% of the annual covered payroll.

The District will pay 100% of the cost of the post-employment benefit plan. The District funds the plan on a pay-as-you-go basis and maintains reserves (and records a liability) for the difference between pay-as-you-go and the actuarially determined ARC cost.

(8) Other Post Employment Benefits Payable, continued

Annual Cost

For the year ended June 30, 2012, the District’s ARC cost is \$1,599,404. The District’s net OPEB payable obligation amounted to \$4,168,838 for the year ended June 30, 2012. The District contributed \$500,592 in age adjusted contributions for current retiree OPEB premiums for the year ended June 30, 2012.

Casitas Municipal Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2012 and 2011

(8) Other Post Employment Benefits Payable, continued

The balance at June 30, consists of the following:	<u>2012</u>	<u>2011</u>	<u>2010</u>
Annual OPEB expense:			
Annual required contribution (ARC)	\$ 1,571,721	1,557,883	1,387,879
Interest on net OPEB obligation	76,751	49,319	20,883
Adjustment to annual required contribution	<u>(49,068)</u>	<u>(44,559)</u>	<u>-</u>
Total annual OPEB expense	1,599,404	1,562,643	1,408,762
Change in net OPEB payable obligation:			
Age adjusted contributions made	<u>(500,592)</u>	<u>(465,366)</u>	<u>(437,757)</u>
Total change in net OPEB payable obligation	1,098,812	1,097,277	971,005
OPEB payable – beginning of year	<u>3,070,026</u>	<u>1,972,749</u>	<u>1,001,744</u>
OPEB payable – end of year	<u>\$ 4,168,838</u>	<u>3,070,026</u>	<u>1,972,749</u>

The District's annual OPEB cost, the percentage of the annual OPEB cost contributed to the Plan, and the net OPEB obligation for fiscal year 2012 and the two preceding years were as follows:

<i>Three-Year History of Net OPEB Obligation</i>				
Fiscal Year Ended	Annual OPEB Cost	Age Adjusted Contribution	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation Payable
2012	\$ 1,599,404	500,592	31.30%	\$ 4,168,838
2011	\$ 1,562,643	465,366	29.78%	\$ 3,070,026
2010	\$ 1,408,762	437,757	31.07%	\$ 1,972,749

The most recent valuation (dated June 30, 2012) includes an Actuarial Accrued Liability and Unfunded Actuarial Accrued Liability of \$18,832,580. There are no plan assets because the District funds on a pay-as-you-go basis. The covered payroll (annual payroll of active employees covered by the plan) for the year ended June 30, 2012 was \$4,830,682. The ratio of the unfunded actuarial accrued liability to annual covered payroll is 389.85%.

Actuarial Methods and Assumptions

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and the pattern of sharing of costs between the employer and plan members to that point. Consistent with the long-term perspective of actuarial calculations, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities for benefits.

The following is a summary of the actuarial assumptions and methods:

Valuation date	June 30, 2012
Actuarial cost method	Entry age normal cost method
Amortization method	Level percent of payroll amortization
Remaining amortization period	30 Years as of the valuation date
Asset valuation method	30 Year smoothed market
Actuarial assumptions:	
Investment rate of return	2.50%
Projected salary increase	1.00%
Inflation - discount rate	2.50%
Individual salary growth	District annual COLA

Casitas Municipal Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2012 and 2011

(9) Net Assets

Calculation of net assets as of June 30, were as follows:

	2012	2011
Net investment in capital assets:		
Capital assets, not being depreciated	6,510,012	6,438,069
Depreciable capital assets, net	51,731,704	52,736,583
Current:

(10) Defined Benefit Pension Plan

Plan Description

The District contributes to the California Public Employees Retirement System (CalPERS), a cost-sharing multiple-employer defined benefit pension plan. CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. CalPERS acts as a common investment and administrative agent for participating public agencies within the State of California. Benefit provisions and all other requirements are established by state statute and the District. Copies of CalPERS annual financial report may be obtained from their executive Office: 400 P Street, Sacramento, CA, 95814.

The contribution rate for plan members in the CalPERS 2.0% at 60 Risk Pool Retirement Plan is 7% of their annual covered salary. The District makes these contributions required of District employees on their behalf and for their account. Also, the District is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The required employer contribution rates are equal to the annual pension cost (APC) percentage of payroll for fiscal years 2012, 2011 and 2010 as noted below. The contribution requirements of the plan members are established by State statute, and the employer contribution rate is established and may be amended by CalPERS. For fiscal years 2012, 2011 and 2010, the District's annual contributions for the CalPERS plan were equal to the District's required and actual contributions for each fiscal year as follows:

Three Years CalPERS Funding Information

<u>Fiscal Year</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation</u>	<u>APC Percentage of Payroll</u>
2009-2010	\$ 247,149	100%	-	6.944%
2010-2011	289,356	100%	-	7.304%
2011-2012	312,713	100%	-	8.197%

(11) Deferred Compensation Savings Plan

For the benefit of its employees, the District participates in two 457 Deferred Compensation Programs (Programs). The purpose of these Programs is to provide deferred compensation for public employees that elect to participate in the Programs. Generally, eligible employees may defer receipt of a portion of their salary until termination, retirement, death or unforeseeable emergency. Until the funds are paid or otherwise made available to the employee, the employee is not obligated to report the deferred salary for income tax purposes.

Federal law requires deferred compensation assets to be held in trust for the exclusive benefit of the participants. Accordingly, the District is in compliance with this legislation. Therefore, these assets are not the legal property of the District, and are not subject to claims of the District's general creditors. Market value of the plan assets held in trust by Nationwide at June 30, 2012 was \$1,407,554 and ICMA was \$1,013,002.

The District has implemented GASB Statement No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*. Since the District has little administrative involvement and does not perform the investing function for this plan, the assets and related liabilities are not shown on the statement of net assets.

For the Fiscal Years Ended June 30, 2012 and 2011

(12) Governmental Accounting Standards Board Statements Issued, Not Yet Effective

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to June 30, 2012, that have effective dates that may impact future financial presentations.

Governmental Accounting Standards Board Statement No. 60

In November 2010, the GASB issued Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*. This standard address how to account for and report service concession arrangements, a type of public-private or public-public partnership that state and local governments are increasingly entering into. This statement is effective for financial statements for periods beginning after December 15, 2011. The District estimates that this statement will not have a material impact on the presentation of the basic financial statements.

Governmental Accounting Standards Board Statement No. 61

In November 2010, the GASB issued Statement No. 61, *The Financial Reporting Entity, Omnibus*. This standard is designed to improve financial reporting for governmental entities by amending the requirements of GASB Statement No. 14, *The Financial Reporting Entity*, and GASB Statement No. 34, *Basic Financial Statement and Management's Discussion and Analysis for State and local Governments*. This statement is effective for financial statements for periods beginning after June 15, 2012. The District estimates that this statement will not have a material impact on the presentation of the basic financial statements.

Governmental Accounting Standards Board Statement No. 62

In December 2010, The GASB issued Statement No. 62 – *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. The objective of this Statement is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in the following pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements:

1. Financial Accounting Standards Board (FASB) Statements and Interpretations
2. Accounting Principles Board Opinions
3. Accounting Research Bulletins of the American Institute of Certified Public Accountants' (AICPA) Committee on Accounting Procedure.

Hereinafter, these pronouncements collectively are referred to as the "FASB and AICPA pronouncements." This Statement also supersedes Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, thereby eliminating the election provided in paragraph 7 of that Statement for enterprise funds and business-type activities to apply post-November 30, 1989 FASB Statements and Interpretations that do not conflict with or contradict GASB pronouncements. However, those entities can continue to apply, as other accounting literature, post-November 30, 1989 FASB pronouncements that do not conflict with or contradict GASB pronouncements, including this Statement. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011. The provisions of this Statement generally are required to be applied retroactively for all periods presented.

Governmental Accounting Standards Board Statement No. 63

In June 2011, the GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. This standard is designed to improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. This statement is effective for financial statements for periods beginning after December 15, 2012. The District estimates that this statement will not have a material impact on the presentation of the basic financial statements.

Casitas Municipal Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2012 and 2011

(12) Governmental Accounting Standards Board Statements Issued, Not Yet Effective, continued

Governmental Accounting Standards Board Statement No. 65

In March 2012, the GASB issued Statement No. 65 – *Items Previously Reported as Assets and Liabilities*. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. The District estimates that this statement will not have a material impact on the presentation of the basic financial statements.

Governmental Accounting Standards Board Statement No. 66

In March 2012, the GASB issued Statement No. 66 – *Technical Corrections—2012—an amendment of GASB Statements No. 10 and No. 62*. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. The District estimates that this statement will not have a material impact on the presentation of the basic financial statements.

Governmental Accounting Standards Board Statement No. 68

In June 2012, the GASB issued Statement No. 68 – *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement. The provisions of Statement 68 are effective for fiscal years beginning after June 15, 2014. The impact of the implementation of this Statement to the District’s financial statements has not been assessed at this time.

(13) Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is self-insured for the first \$25,000 of general and auto liabilities for each occurrence, and the excess (up to \$10,000,000 per occurrence and in the aggregate) is covered through the purchase of an insurance policy. Employment practices liability coverage is self-insured for the \$25,000, and the excess (up to \$5,000,000 per occurrence and in the aggregate) is covered through the insurance policy.

Casitas Municipal Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2012 and 2011

(13) Risk Management, continued

The District is a member CSAC Excess Insurance Authority (Authority) for its workers' compensation coverage. The District is self-insured for the first \$125,000 of each occurrence, and the Authority finances \$5,000,000 per occurrence. The District purchased additional excess coverage layers of \$95 million which increases the limits set forth by the Authority.

Settled claims have not exceeded any of the coverage amounts in any of the last three fiscal years and there were no reductions in the District's insurance coverage during the years ending June 30, 2012, 2011 and 2010. Liabilities are recorded when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated net of the respective insurance coverage. Liabilities include an amount for claims that have been incurred but not reported (IBNR). There were no IBNR claims payable as of June 30, 2012, 2011 and 2010.

(14) Commitments and Contingencies

Casitas Dam Project – Seismic Safety of Casitas Dam

The United States Bureau of Reclamation (USBR) has undertaken and completed a project to strengthen Casitas Dam to better withstand seismic activity. Under Federal Law, Casitas may be required to pay 15% of those costs. The District and the USBR are negotiating Casitas' share of the cost of the project. Casitas may be responsible for approximately \$6,000,000 of the project's anticipated costs. The amount paid as of June 30, 2012 is \$2,125,765 which is the Municipal and Industrial portion or 42.5% of the cost attributable to Casitas. The amount that is attributable to Agricultural Customers or 57.5% of the cost is still to be resolved. The project is complete.

State Water Contract

Estimates of the District's share of the project fixed costs of the State Water Project (SWP) are provided annually by the State. The estimates are subject to future increases or decreases resulting from changes in planned facilities, refinements in cost estimates and inflation.

During the next five years payments under the State Water Contract, exclusive of variable power costs, are currently estimated by the State to be as follows:

<u>Fiscal Year</u>	<u>Amount</u>
2013	\$ 1,117,556
2014	1,081,457
2015	1,031,054
2016	977,990
2017	924,856

As of June 30, 2012, the District has expended \$19,538,333 since the District started participating in the State Water Contract.

According to the State's latest estimates, the District's long-term obligations (25% share) under the contract, for capital and minimum operations and maintenance costs, including interest to the year 2035, are as follows:

	State Water Contract
	<u>Long-term Obligations</u>
Transportation facilities	\$ 16,594,315
Conservation facilities	5,651,536
Off-aqueduct power facilities	310,917
Revenue bond surcharge	<u>1,551,621</u>
Total long-term SWP contract obligations	<u><u>\$ 24,108,389</u></u>

Casitas Municipal Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2012 and 2011

(14) Commitments and Contingencies

State Water Contract, continued

The amounts shown above do not contain any escalation for inflation and are subject to significant variation over time because the amounts are based on a number of assumptions and are contingent on future events. Accordingly, none of the estimated long-term obligations are recorded as liabilities in the accompanying basic financial statements.

Bay/Delta Regulatory and Planning Activities. The State Water Resources Control Board (State Board) is the agency responsible for setting water quality standards and administering water rights throughout California. Decisions of the State Board can affect the availability of water to the District and other water users by means of public proceedings leading to regulations and decisions. In 1995, the State Board adopted a Water Quality Control Plan establishing water quality standards and flow improvements in the Bay/Delta watershed.

In August 2000, the California Federal (CALFED) Bay/Delta Program Record of Decision (Decision) was approved with mandates to improve water quality, enhance water supply reliability, augment ecosystem restoration, and assure long-term protection for Delta levees. During its first three years, CALFED has invested more than \$2.0 billion in hundreds of local and regional projects to meet these program goals.

In May 2004, a Delta Improvement Package was proposed to facilitate implementation of the Decision. Funding is expected to be provided by state and federal appropriations and contributions from local users, including the District. CALFED's objective is to allocate project costs based on a beneficiaries pay policy, that is new costs would be commensurate with benefits received. At this time, the exact allocation of costs between the federal, state, and local users has not been determined, and therefore, the District cannot estimate the extent of timing of its contributions at this time.

There are other pending actions that may adversely impact the District's ability to control the sale of water transported through the SWP into its service area. The impact on future revenues of such actions cannot be determined.

Grant Awards

Grant funds received by the District are subject to audit by the grantor agencies. Such audit could lead to requests for reimbursements to the grantor agencies for expenditures disallowed under terms of the grant. Management of the District believes that such disallowances, if any, would not be significant.

Litigation

In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

(15) Subsequent Events

Events occurring after June 30, 2012 have been evaluated for possible adjustment to the financial statements or disclosure as of October 31, 2012, which is the date the financial statements were available to be issued.

Statistical Section

**Casitas Municipal Water District
Statistical Section**

This part of the District’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District’s overall financial health.

Table of Contents

	<u>Page No.</u>
Financial Trends These schedules contain information to help the reader understand how the District’s financial performance and well-being have changed over time.	51-54
Revenue Capacity These schedules contain information to help the reader assess the District’s most significant own-source revenue, water sales.	55-59
Debt Capacity These schedules present information to help the reader assess the affordability of the District’s current levels of outstanding debt and the District’s ability to issue additional debt in the future.	60-61
Demographic Information This schedule offers demographic indicators to help the reader understand the environment within which the District’s financial activities take place.	62
Operating Information This schedule contains service and infrastructure data to help the reader understand how the information in the District’s financial report relates to the service the District provides.	63

Revenue Rates
Fiscal Year 2012**

Schedule 5-1

In fiscal year 2008, the District changed its rate structure as follows:

RATE SCHEDULE - CLASS 1 SERVICE				Rate per Unit **		
				GRAVITY	PUMPED	
Residential						
	Bi-Monthly Lifeline	0-20 Units		\$ 0.567	\$ 0.831	
	Bi-Monthly Usage	21-34 Units		\$ 1.003	\$ 1.267	
	Bi-Monthly Usage	35-100 units		\$ 1.404	\$ 1.668	
	Bi-Monthly Usage	101 units +		\$ 2.200	\$ 2.464	
Business				\$ 1.259	\$ 1.524	
Industrial				\$ 1.259	\$ 1.524	
Resale				\$ 0.780	\$ 1.403	
Other				\$ 1.259	\$ 1.524	
Temporary				\$ 1.419	\$ 1.683	
Recreation				\$ 1.259	\$ 1.524	
RATE SCHEDULE - CLASS 3 SERVICE				Rate per Unit **		
				GRAVITY	PUMPED	
Ag-Residential						
	Monthly Lifeline	0-10 Units		\$ 0.567	\$ 0.831	
	Monthly Usage	11-17 Units		\$ 1.003	\$ 1.267	
	Monthly Usage	18 -50 Units		\$ 1.404	\$ 1.668	
	Irrigation (AG)	51 units +		\$ 0.588	\$ 0.852	
** One unit equals 100 cubic feet (748 gallons)						
Cost per AF (example) Irrigation				per AF = \$.588 x 435.6 =	\$ 256.13	gravity
				per AF = \$.852 x 435.6 =	\$ 371.13	pumped

Independent Auditor's Report on Internal Control Over Financial Reporting And on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Directors
Casitas Municipal Water District
Oak View, California

We have audited the basic financial statements of the Casitas Municipal Water District (District) as of and for the year ended June 30, 2012 and 2011, and have issued our report thereon dated October 31, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audits, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Directors and management and is not intended to be and should not be used by anyone other than these specified parties.
